This five-day course is aimed at physicians from around the world who specialise or have a major interest in the care of older people. Targeting doctors at consultant or senior trainee level, the course includes update lectures by expert speakers on topics of current and practical relevance, with frequent opportunities for interactive case-based learning. Places are limited, thus maximising opportunities for interaction. The course also features a popular social programme including a welcome reception in the historic College buildings, a medical history tour of Edinburgh and dinner (optional) at a top restaurant. Afternoons on Wednesday and Friday are free to explore our beautiful city.

The full programme is available to book online from 1 December 2014 at <http://events.rcpe.ac.uk>
