

8th-10th October 2014

What can we do to create a society that guarantees an affordable high quality of life?

The Northern Netherlands and the Baltic Sea Region are dealing with the same demographic changes: an elderly population, growing cities and low populated rural regions. [The 2014 ScanBalt Forum](#) will be focused on the ageing society. Participants will be informed about the latest developments in Active and Healthy Ageing (Life Science, Medical Technology, Food & Nutrition, Healthy Lifestyle / Health Tourism, Business Development and more).

Representatives of industry and research institutions from [the Northern Netherlands and the Baltic Sea Region](#) will be brought together in a stimulating environment to exchange ideas, to make new contacts and to initiate international collaboration.

[The 2014 ScanBalt Forum](#) is organized by the Healthy Ageing Network Northern Netherlands (HANNN) and the University Medical Center Groningen in close collaboration with the three Northern provinces: Groningen, Fryslân and Drenthe.

Looking forward to see you in Groningen!

Date: 8th-10th October 2014

Location: University Medical Center Groningen, The Netherlands
